OKLAHOMA JUDGE NATIVE OF COLLIN DIED SUNDAY

Ed J. Walden, a member of the Forsyth Machine Co. firm of McKinney and wife; John Walden, a farmer living on the H. A. Finch farm, about seven miles southwest of McKinney; Fred Ogilvie and wife of Melissa and Arthur Walden and wife of Melissa, all attended the Judge Asa E. Walden obsequies, at Marietta, Oklahoma, Monday afternoon, September 3. The funeral was held in the Methodist church with interment following in the cemetery, there.

The deceased, District Judge Asa E. Walden, 4, of Marietta, was one of the most prominent jurists of Oklahoma who died in an Ardmore hospital unexpectedly Sunday afternoon following an operation.

Judge Walden was born near Anna, in North Collin, March 1, 1893, being a son of W. E. Walden and wife who moved with their family to Love county, Oklahoma, then Indian Territory, in 1900.

The parents of the deceased, who are still living there, were married in Collin county, his mother being before her marriage, Miss Alice Roberts. They were married near Melissa.

The deceased studied law at Cumberland university in 1915-16. He married Miss Exie Wiseman, December 22, 1916. She and the following five children survive: Helen, Alice Jo, Rosmarie, Sue and Jimmie. He is also survived by a number of relatives in Collin county among them being his uncles, Ed J. Walden, John Walden and Arthur Walden and perhaps others. Guy Walden of the Collin County National bank here at McKinney is a cousin of the deceased.

At the age of twenty-one, Judge Walden was elected to the State House of Representatives from Love county, Oklahoma, serving six years.

At the time of his election to the bench he was the youngest district judge in the State of Oklahoma.

Judge Walden also was a member of the State Court of Tax Reviews. He had been on the district bench for Love and Carter counties for twelve years. Deciding to leave the bench next January, he entered the race this year for Democratic nomination for Congress from the Third District but was defeated in the first primary election.

John W. Walden and wife, grandparents of the deceased Oklahoma jurist, came from Tennessee to Texas, fifty-five years ago and settled near Melissa, where the grandfather died and is buried.

Mr. and Mrs. E. M. Taber and little son, Joe Morris, of Rockdale, Texas, were week-end guests of Mrs. Taber's parents, Mr. and Mrs. E. B. Moore, at Forest Grove. Mrs. Taber will be remembered as Miss Jeannie Mae Moore before her marriage. She is a graduate of Boyd High school of this city.

A PROMINENT WESTON COUPLE IN M'KINNEY

Douglas Cassady and wife of Weston transacted business in McKinney Tuesday. Mr. Cassady and his brother-in-law, J. J. Brown, own and operate the splendid big new gin at Weston under the firm name of Brown & Cassady. However, their gin run season is not very bright for turning out a great number of bales this year, on account of the havoc that the drouth has played with the cotton crop. The Weston section greatly appreciated the good rain that fell Sunday night, not only for the season that it partly provided but also for the change from the intense heat of the long hot summer to the tang in the atmosphere that reminds us of autumn weather once more. Douglas Cassaday is a son of Mr. and Mrs. W. A. Cassaday, a fine old farm couple who own extensive farm lands in the northern part of the county.

J. MASTON GAY LEFT FRIDAY FOR WEST TEXAS

J. Maston Gay left McKinney, Friday morning, en route back to Sedan, about 450 miles west of McKinney, where he has his office headquarters as manager of the 24,000-acre farms of the late W. B. Newsome estate.

Mr. Gay has been visiting his home and family here for a week or two. He is a prominent business man of Collin county as well as of Bailey and Lamb counties, dividing his time with the larger part of it spent with his West Texas interests. He is president of the First National bank of Sedan and was formerly president of the Nevada bank, at Nevada, in Southeast Collin, until a year or two ago when he retired.

Mr. Gay states that more rain has fallen on the Newsome farms this year than here in Collin, but still the cotton and feed crops in both out there are not up to the average this year on account of the smallness of the rainfall, which is the cause of the greatly decreased crop yields here in Collin.

Mr. Gay was accompanied to Sedan by his son, Morris Gay, who will spend a few days visiting with his father and then return to his home in McKinney again.

Large Number Exhibitors Will Attend Horse Show

A. H. Eubanks, president of the seventeenth annual Collin County Free fair and the Collin county horse show, held in connection with the annual fair, is enthusiastic over prospects for one of the most successful horse shows ever held in this city, which will be staged on the four fair nights, Sept. 24, 25, 26 and 27.

The Collin County horse show has become one of the outstanding exhibitions of its kind in Texas and annually attracts fine steeds here from over the Southwest.

* * *

Collin County Night.

Messrs. Eubanks, Tom M. Scott, secretary, and other horse show officials believe that the event this year will prove the best ever held here. They announce that the first day has been set aside for the exhibition of Collin county horses exclusively, and that there will be probably twenty-five to forty more saddle horses entered for the 1934 exhibition than there were in 1933.

Officials of the horse show, the horse and the livestock department of the fair this year include: A. H. Eubanks, president horse show; Tom M. Scott, secretary horse show; Lee Cook, superintendent livestock department; Joe Wilcox, superintendent horse department; R. Fitzhugh Newsome and W. P. Abernathy, vice-presidents an assistants to Pres. Eubanks; Ray Ashley, assistant.

Last year the number of exhibits exceeded the stall room and provisions are being made this year to take care of every entry in comfortable style.

Mr. Scott has recently returned from a trip to the eastern states during which he visited some of the most prominent stables in the country. Officials have not announced the name of the judge, but it can safely be stated that he will be a man from outside of the borders of Texas and a man who knows horses and how to judge them from every angle.

* * *

Outstanding Event.

The Collin County Horse Show has become one of the outstanding exhibitions of its kind in Texas. It ranks with the best in its class, with no intention or ambition to compete with the Kentucky Horse Show or the American Royal. However, entries from all exhibitors regardless of residence will be accepted. In this respect it is different from the Dallas Horse Shows which have been open only to Texas exhibitors.

* * *

Dallas Horsemen Coming.

Mr. Scott visited several Dallas stables and horse owners last week and has reported to the Horse Show committee that enthusiasm is keen among the Dallas exhibitors.

North Texas cities to be represented will include in addition to the several stables from Dallas, several entries from Paris, Sherman, Fort Worth, Denison and probably Wichita Falls. There also will be represented a number of Oklahoma stables. Prize money will be equal to, if not greater than, last year. Additional seats will be provided in the grandstand as well as in the bleachers to take care of an increased attendance.

Among the Dallas stables to be represented at the show will be Hill Top, Glad Acres, Theodore Heady, Harry Lewis, Horse Shoe, Spec Marcum, Pickens Burton, together with a number of entries from private stables.

* * *

To Improve Show Ring.

The horse show ring will be improced and placed in the very best of condition. Inquiries have been received from several additional towns and cities in Texas regarding the exhibition. These include Houston, San Antonio and Greenville.

McKinney boasts many noted horsemen and horsewomen, who at horse shows in the past, have taken an active part in the horse show. This city has boasted of several young lady riders including Misses Shirley and Lura Lee Scott, Miss Poppy Bass and many others.

The events of the first night of the horse show will be of great interest to local people especially, as they will be devoted to Collin county horses and ponies. The pony classes promise to be even larger than those of previous years and much enthusiasm is already being shown by the youngsters of the city and county. It is hoped that every child having a pony will make arrangements to enter it in some class the first night of the show. There will be ribbons and other awards for the winners. In the near future the classification for the different sizes will be published. In the meantime, all the children who desire to enter in show are requested to measure their ponis and turn in their names, along with their ponies' heights, to Jud Henderson, at the Municipal Gas company, or to Mrs. Henderson.

Young Josephine Minister Is Tuesday Night Speaker At Young People's Revival

Rev. Beecher Bennett, pastor of the Methodist church at Josephine, was the Tuesday night speaker at the young people's revival service at the First Methodist church.

The services, which commenced Monday night with a sermon by Rev. Fitzhugh Talbot, will continue through Friday night.

Wednesday night's speaker was Rev. J. W. Lindsey, of Renner, while Thursday night, Rev. Minor Bounds Jr. will be the preacher. Friday night, the services will be concluded with a get-together and entertainment on the church lawn.

Miss Janet Miller was soloist at Wednesday night's service.

Rev. Mr. Bennett, who spoke Tuesday night, studied for the ministry at Southern Methodist university, Dallas. He is a splendid young preacher and was characterized by Dr. Bounds in his introduction, as one of the leading an dmost prominent young ministers of the Methodist faith.

He spoke on "Prayer," which he characterized as one of the fundamental elements of worship. The choir and congregational singing, which opened the service was entered into by practically everyone present, led by Rev. Minor Bounds Jr. Mrs. Gibson Caldwell and Miss Evelyn Roberts both had a part as accompanists.

There were several visiting ministers in the congregation.

Defines Prayer.

In beginning his sermon, Rev. Bennett declared that prayer is entering into communion with our Heavenly Father and talking with God. It opens our hearts and lives to God and gives Him a chance with our lives. In this manner, God can come into our lives and make His wishes known. Jesus' life is an example of prayer.

Answering his own question of "What does man ask for when he prays?" the speaker asserted that we should ask for something that we really need when we pray, for our Heavenly Father knows our needs even before we go to Him in prayer.

* * *

Prayers Answered.

Answering another question of "Are our prayers answered?" Rev. Mr. Bennett declared that our prayers are always answered, although not always in the affirmative and not always promptly. He asserted that we should shut out the outside world and think only of Jesus when we come to Him in prayer. He paid tribute to those who pray in secret, although they declare themselves unable to pray in public. "If it were not for those praying secretly, I do not know what would become of some of us," he said. We should utter prayers of thankfulness. The trouble is that we do not stop long enough to thank Jesus for His blessings.

Effects of Personal Prayer.

The young pastor declared that personal prayer has done much for this world. Jesus, he added, entered into personal prayer that His disciples' faith might not fail. We are ofttimes prone to forget what Jesus has done for us. Jesus, on several occasions, felt the need of prayer. If He (Jesus) needed it, most certainly we do. It reinforces and adds strength.

He suggested praying for our enemies, for when we do love comes into our hearts and gradually we love them. That was given as his reason why Jesus loved His enemies. The young speaker exhorted his hearers to become interested in their church and then to utter a secret prayer in its behalf and for those who have given their lives in behalf of Jesus Christ. A prayerful life makes us akin to Jesus. Prayer makes us become like God and like Christ in our thoughts and actions.

We should teach our children to pray, for we begin as a child in our prayer.

He urged his hearers to give God a chance to deal with them and to come in an attitude and spirit of prayer when they pray, asking God's will be done.

Visitors Present.

Dr. J .H. Cozad, pastor of the First Baptist church, was in the congregation and led the opening prayer.

Rev. F. Lamar McGown, pastor of the South Wilcox Street Methodist church, and wife were also in the congregation as were a number of the young people of his church, among them being Rev. Clyde Ford, who was just recently licensed to preach.

Rev. Beecher Bennett, preacher of the evening, is serving his first pastorate at Josephine. He and his young wife, who was also present, are both graduates of Southern Methodist university.

Miss Ila Jean Francis and Mrs. Clifford Goggans sang a duet special for the evening's inspiring song service.

SON TO PREACH ON ANNIVERSARY OF HIS PARENTS

A series of services are being held each night this week at the First Methodist church, honoring the young people of that congregation and numerous other young people of the city, many of whom are attending, as well as the older people.

Services are held each night at which the preacher is a young minister and pastor of some church in the McKinney District.

The preacher this (Thursday) night, Rev. Minor Bounds Jr., is the son of the pastor, Dr. Minor Bounds, of the First church. Young Mr. Bounds is the choir director during the week's series of meetings at which the young people predominate in the choir.

A unique combination of facts are related in the service tomorrow night in that the preacher of the evening is the son and namesake of the pastor of the church, Dr. Minor Bounds, who was licensed to preach in this church of which he is now pastor. The service also happens to occur on the thirtieth aninversary of Dr. and Mrs. Bounds' wedding.

These are a combination of facts that rarely, if ever before occurred in the knowledge of any other McKinney pastor or citizen.

These rather unusual combination of circumstances will doubtless serve to draw an increased attendance at tomorrow night's service, which several of the co-pastors of Dr. Bounds of the city of other denominations have announced their purpose of attending and enjoying the occasion with him.

Still another unusual feature of tomorrow night's service will be the presence of Rev. S. W. Miller, a retired old Methodist preacher of Frisco, who officiated at the wedding of Dr. and Mrs. Bounds at the home of the latter's parents at Verona, thirty years ago. Rev. Mr. Miller was pastor of the bride at the time. He will preside at tomorrow night's service.

Rev. Mr. Bounds was reared in the Nevada section of Southeast Collin, while Mrs. Bounds was reared at Verona about thirteen miles northeast of McKinney. She was formerly Miss Effie St. Clair, daughter of the late W. E. St. Clair and wife, early settlers of the Verona community. The aged widowed mother is still living and residing at the home of another daughter, Mrs. John T. Grisham.

MART RUSSELL IMPROVING AT CITY HOSPITAL

Mart Russell, 20, who was critically injured in an automobile accident, about two miles south of the city, Sunday afternoon, is slightly improved today (Wednesday) at the City hospital. He suffered a fracture of the skull in the accident which occurred when the automobile, which he was driving, turned over in the ditch beside Highway 6 and 75. Miss Aline Robinson, who was also in the automobile, was injured but is improving. Jack Kerby, also injured, is now at home and improving rapidly. Mr. Russell, an employe of Leonard's Department store, is a resident of the Fitzhugh Mills community, while Miss Robinson is from Clearlake and Mr. Kerby from the Forest Grove community.

Marvin Hope, who recently accepted a position as salesman with the J. C. Penney Dry Goods and Clothing store, has been living in McKinney for several years, clerking in the A. D. Hope & Sons big hardware and furniture establishment. He is a nephew of A. D. Hope and is a young man of unusual personality and geniality, who has become one of the most popular and highly respected young citizens of our city since coming here three or four years ago. He is a former Texas A. & M. college student who has a multitude of good friends scattered in almost every part of the country.

The Board of Managers of the County Council, Parent-Teacher association, will meet Friday afternoon, September 7, at 2:30 o'clock at the Central Presbyterian church in this city. All presidents of P.-T. A. groups in the county are urged to attend, as well as any other interested persons. This is an important meeting and those in charge are anticipating a large attendance.

Miss Mary Jo Cox returned Tuesday to her home in Gilmer after a several weeks' visit with her cousins, Misses Frances and Kathryn Foster, in this city.

Miss Ila Jean Francis on a downtown visit early today; she has a host of friends . . . That young son of Constable and Mrs. John S. Record is a manly little fellow and a 100 per cent American boy . . . While downtown the other night, he accidentally burned his fingers on his daddy's cigar, and as a result, pouted for awhile, but was soon laughing, forgetting his recent accident . . . Miss Frances Cook, popular and attractive member of McKiney's younger set, downtown and talking with friends . . . Ernest Turrentine and Miss Betty Jo Geer, coming downtown together; both are popular in our home town and have oodles of friends . . . McKinney boasts some excellent nimrods—and some not so good . . . For example, friends of Ted Reddell are telling that he went out the other day on a dove-hunting expedition and returned home without even one dove, after shooting up a box of shells; perhaps Ted had better string along with softball . . . Wonder what's causing the invasion of crickets in McKinney? At any rate, they're discernible on every hand around burning lights downtown these nights . . . With so many of them around, someone suggests a cricket derby, somewhat similar to a terrapin derby . . . Judy, darling little daughter of Mrs. Malcolm Kinney of Roscoe, Texas, on a visit in McKinney, because of her beauty and genial disposition, is making friends with everyone she meets; Judy is visiting her grandmother, Mrs. Ola McCauley, in our home town.

NEWS FROM THE INJURED

Friends in McKinney will be glad to learn that two local young men, Messrs. Jack Dowell Jr. and Norman Scott, were not seriously injured in an automobile accident near Van Alstyne late Sunday afternoon. Both of these fine young men are good friends of "Your Home Town." While on their way to Durant, Oklahoma, to become students at Southeastern Oklahoma State Teachers college, Sunday, the automobile in which they were riding with a friend from Sherman jumped off the road on a curve, just south of Van Alstyne, overturning three times. Both were bruised and suffered cuts and scratches, but after emergency treatment at Van Alstyne, they resumed their journey via "highway" and arrived at Durant and reported to the registrar's office. We call this an evidence that the youngsters are desirous of a college education.

CELINA FARMER OPTIMISTIC ON CONDITIONS NOW

Ben Ownsby and fine young son, J. C. Ownsby Jr., of Celina, were McKinney business visitors Tuesday. Ben Ownsby and wife and little son live in the home with his father, J. C. Ownsby, one of Northwest Collin's very best men and larger farmers. Ben Ownsby was a former member of the County School Board.

He tells us that an inch and a half rain visited his section of the county on Sunday night. He thinks it will help some cotton. In fact, he says, dry years nearly always turn out more cotton in the final wind-up than the farmers are expecting to get.

Ben thinks that the condition of our country has vastly improved in the last eighteen months under the "New Deal" administration of Franklin Delano Roosevelt. He says the farmers and unemployed have received practical help that has been of untold benefit to his section of the county. He doesn't believe that very few, if any, of those who have been helped were unworthy or that their morale has been lowered by the assistance extended them in their dire need.

In fact, Mr. Ownsby says we live in the greatest state of the union and under the finest form of government known to the world. This government has a sympathetic, assisting hand to all subjects who live honest, industrious and upright lives, and who have been overtaken by unavoidable hard luck on their part.

The Government, like individuals, should have a sympathetic heart and helping hand to the needy and the unfortunate and do what can be done to restore them to self-supporting for themselves and families. The "New Deal" is doing that very thing, and thereby preserves the self-respect and renews the hopes and ambitions of life with many a man and woman upon whom the blighting effects of the depression has fallen.

Former County Tax Collector Yancy Powell has been taken to the home of his sister, Mrs. J. M. Pearson after being a patient in the City hospital for sixteen weeks under treatment for a broken hip. The painful accident happened to him when the top of a stool on which he was sitting in a McKinney safe tipped to one side and precipitated him on the floor with sufficient force to break his hip. The broken member is knitting together nicely, but the patient is still weak from his long confinement and encasement of his body from the waist down in a rigid cast. Mr. Powell is a member of one of Collin county's honored pioneer families. His older brother, W. R. (Rip) Powell served as County Tax Collector before Yancy's election and died in office. RICHARD CRANK FORMERLY OF PROSPER VICTIM OF RAILROAD CROSSING ACCIDENT

KILLED BY MOTOR CAR AS HE WAS STEERING HIS TRACTOR ACROSS TRACK—ACCIDENT OCCURRED WEDNESDAY BETWEEN LOCKNEY AND PLAINVIEW TO WHICH SECTION HE RECENTLY MOVED.

Richard A. Crank, aged about 50, who was reared at Prosper, in West Collin, where he lived until a few months ago, was killed at a railroad crossing Wednesday, September 5, bethween Lockney and Plainview, Floyd county, in West Texas, where the family had recently moved.

The deceased was driving his tractor when a motor car on the steam railroad track smashed into him with fatal results.

This paper learned through U. N. Clary, banker of Prosper, Thursday morning, that the interment will probably be at Lockney today (Thursday).

The deceased was a son of Mr. and Mrs. J. D. Crank, veteran farm couple of Prosper, who recently sold their farm in West Collin and located near Lockney, with their son.

The deceased is also survived by his wife and three children. His wife was formerly Miss Elva Thompson of Bonham.

The deceased was a member of the Presbyterian church and was highly regarded by all who knew him.

Our first information concerning the tragic ending of Mr. Crank's life came through Tom Talkington of Prosper who was in the city Wednesday afternoon and stated that a message had just been received by Jim Mohon, merchant at Rock Hill.

The sudden snuffing out of the life of this former highly esteemed West Collin citizen for many years cast a pall of sadness over the entire Prosper community and the many friends of the deceased in McKinney and other parts of the county.

Editorial Expression

SUCCESSFUL ADMINISTRATION FOR ALLRED.

Governor-elect James V. Allred, now about thirty-five, has developed into a mature, well poised statesman and leader, according to Editor Ed Howard of the Wichita Times, leading home town paper of the recently successful gubernatorial candidate. "We are glad," said Editor Howard, "that James V. Allred, successful candidate for governor of Texas, spent several days at his old home in Wichita Falls following the Democratic primary, for it enabled many of his old friends to renew their acquaintance with their fellow townsman and to know him better—to glimpse the man into whom he has developed.

We say it with no disrespect, but when Jimmy Allred left here several years ago to take office at Austin as attorney general of the state of Texas there was still much of the rawness and eagerness of ambitious youth about him.

Those who observed him over last week as the successful candidate in his race for governor saw maturity and humility and soberness and toleration where they had seen these other qualities four years ago.

They liked the Jimmy Allred into whom the youth has developed and been refined by fires of experience.

Even those who opposed his candidacy or who gave it unenthusiastic support look to his administration with hope and confidence.

With a legislature that may be counted as friendly to his administration and its program and with support that comes from every county and section of the state the situation is highly favorable for the success of the incoming administration."

The aid that the Agricultural Adjustment Administration has given to the farmers, not only of Collin county but of the entire nation, through that wise plan formulated by President Roosevelt and carried out effectively by the Administration, can not be fully appraised in the two short years that it has been effective. The curtailment of production of cotton in the South has greatly aided this section above the rock-bottom levels to which it had sunk when the A. A. A. plan went into effect. But, the South can never hope for more than the fair living that such limited crops and moderate prices are bringing. To run the cotton market up with two or three short crops and then make a "cleaning" out of a large crop at high prices would hurt the situation for years to come. For unless there is a greater demand for cotton goods, a really big crop would glut the market. Besides there is the ever increasing fear that foreign crops of cotton may become so large as to glut the market. In other words, maybe the South had better start raising chickens instead of too much cotton—and be sure of three good meals a day.

WORLD'S COOLEST SUMMER.

W. F. Leonard hands in the following item relative to the other one freakish year about 118 years ago. He says the item was clipped from an old copy of the McKinney Examiner a number of years ago. During this unprecedented dry, hot summer season, the story seems more fantastic and unreal than it would ordinarily seem. It says:

In 1816 snow and sleet fell on seventeen different days in May. In June there was either frost or snow every night but three. The snow was five inches deep for several successive days in New York and from ten inches to three feet in Vermont and Maine; July cold and frosty—ice as thick as window panes. In every one of the New England States in August, the ice was an inch thick. The cold killed every green thing in the United States. In 1817, corn that had been kept over sold at from $5 to $10 per bushel for seed. May 19, 1839, snow fell to the depth of a foot in Jamison, Va., and was piled up in huge drifts in most all the northern States; snow also in many parts of Iowa and Illinois, May 11, 1878."

Thousands of idle men put to work this fall—millions of dollars put into circulation—more comfortable, more beautiful and more valuable homes for Americans—a higher morale and a better standard of living. These are among things which the Federal Housing Administration hopes to accomplish through the Modernization Plan. It is a plan designed to stimulate more than 500 related industries that have remained inactive while practically all other trades, industries and businesses are on their way to recovery. The Better Housing Program, the first step of the Federal Housing Administration to be offered to the public, enables owners of homes and other buildings to have needed repairs and desired alterations and improvements made on an attractive easy loan basis with a low interest rate.

One of the features of the Texas State Fair Agriculturama to be held at Dallas from October 6-21 will be the results of many years of experimental work in drouth resisting crops, according to J. A. Moore, superintendent of Agriculture, who has been working with officials of Texas A. & M. College and other agricultural agencies of the state in gathering such exhibits. Special preparation of the soil, special drouth resisting seeds and special means of cultivation are necessary for these crops. All of these methods and results thereof will be shown. One feature of this method of farming will be an exhibit of corn, where, under the terrible drouth conditions this year, the farmer raised a thirty-five bushel crop, while his neighbor's corn across the road was a total failure. There has been much interest in drouth resisting crops and their cultivation in Texas this year due to the terrific drouth which has hung on for several months. Texas farmers will be prepared from now on.

One of the best informed specialists employed by the Federal Government is C. M. Adams of Texarkana, district engineer for malaria control, embracing twenty-seven North and Northeast Texas counties. He recently spoke before the Lions Club in McKinney on "Community Health." He has been coming to McKinney for more than two years. Under his inspiration some of the most wholesome rural sanitary measures have been fostered by the Department of Health with which he is connected. Among some of these advancements for the betterment of public health fostered by Mr. Adams are the building of sanitary pit toilets in rural districts and villages not equipped with sewerage advantages; mosquito-proofing of town and rural homes and protection of family water supply against infection. He works in our city and county in cooperation with the County Farm Agent Jack P. McCullough, County Home Demonstration Agent Miss Helen Dunlap and County Relief Administrator H. B. Bickers, all of McKinney.

Many farmers now take the stand that the surplus of the past few years was a supply of agricultural products to take care of the predicament brought on by the severe drouth in many agricultural sections of the nation, this year. This cannot be true. Even with the drouth, one of the worst in history, the crops this year will be almost enough for domestic consumption. Most of the surplus is still there and will be there the next time you look up the records. Had it not been for the Government's spending of money and had the surplus not been reduced as much as it has, the prices of farm products would be at a very low ebb and there would be little demand now, while the ready cash put into agricultural channels by the A. A. A. would have been missing. Would we be worse off than now? Of course, we would.

G. I. Wilcox, president of the Sherman Democrat Publishing Co., and wife recently came back to Sherman from an extended summer's sojourn at Corpus Christi, down on the coast. They often go to Corpus Christi where there is good fishing, duck shooting and surf bathing. Mr. Wilcox and wife will leave Sherman in a few days to visit the Century of Progress, at Chicago, after which they will go to Flint, Michigan, to drive back home a fine new Buick sedan that he has recently purchased. The young couple were accompanied to McKinney by the groom's brother, Leslie Rains of Ennis, and by Miss Narita Smith of Corsicana. Both Messrs. Lindel and Leslie Rains are good friends of L. G. Scott, son of Prof. F. M. Scott, with whom they roomed while all were students at North Texas State Teachers College during the 1933-34 term.

Stop Chills and Fever!

Rid Your System of Malaria!

Shivering with chills one moment and burning with fever the next—that's one of the effects of Malaria. Unless checked, the disease will do serious harm to your health. Malaria, a blood infection, calls for two things. First, destroying the infection in the blood. Second, building up the blood to overcome the effects of the disease and to fortify against further attack.

Grove's Tasteless Chill Tonic supplies both these effects. It contains tasteless quinine, which kills the infection in the blood, and iron, which enriches and builds up the blood. Chills and fever soon stop and you are restored to health and comfort. For half a century, Grove's Tasteless Chill Tonic has been sure relief for Malaria. It is just as useful, too, as a general tonic for old and young. Pleasant to take and absolutely harmless. Safe to give children. Get a bottle at any store. Now two sizes—50c and $1. The $1 size contains 2½ times as much as the 50c size and gives you 25% more for your money.

● "Concrete Begins"—most welcome sign in the world to a weary motorist.

You relax. Sit back in the seat. Ease up your grip on the wheel.

Your car leaps ahead. The motor soars into a swifter, smoother pace. The tires sing. You're on the wing.

The jolts . . . wheel-fight . . . nervous tension of other roads are quickly forgotten. Motoring regains its zest.

You're on safe, smooth concrete again, where driving is a pleasure, not a problem.

Concrete roads are safer . . . you're less apt to skid . . . you'll stop more quickly, more smoothly . . . your tires are less apt to blow out. Your visibility is better. Your car operates more economically. Because you're relaxed, you drive more easily, more surely.

Get on concrete. Stay on it. Insist on it.

●

Pave Texas highways with Concrete . . . attract more Texas Centennial visitors . . . advertise Texas to American motorists.

TEXACO PRODUCTS LEAD IN FAVOR WITH MOTORISTS

Rhea & Waters, Local Distributors, In McKinney Territory, Offer Super Service to Motorists By Furnishing Every Need for Lubrication and Fuel for Motor Cars.

The growth of oil companies during the past quarter century has been one of the marvels of modern business and in this respect none has shown a more rapid expansion that the Texas Company.

This company was established over 30 years ago and has grown in that time from a small corporation to one now operating in every state in the union and 76 countries of the world. It is a thoroughly independent organization, with over 80,000 stockholders, scattered throughout the United States and many foreign countries.

The Texas Company, through its agents, wholesales Texaco Crack-Proof Motor Oil, Havoline Wax Free Oil, Marfak grease and their greater Fire Chief Gasoline. Fire Chief Gasoline was developed over four years ago because of the U. S. Government's desire to secure a fuel with a high octane of anti-knock rating and one providing quicker starts and speed with no sacrifice in power. Government specifications were used, and Texaco Fire Chief Gasoline was the result. It immediately gained popular favor and today it is an even better gasoline, for within the past eight months the Texaco Company has added to it lead, or ethyl, thus making Greater Fire Chief Gasoline, which with its greater power and anti-knock requirements is away ahead of the rest.

Texaco Service Stations which can easily be identified by the familiar Texaco Red Star and Green "T," now have this gasoline for the convenience of all motorists.

Texaco Stations are offering during the months of August and September, a special on greasing in order to better acquaint the public with the value of Marfak grease for every lubrication purpose. Drive in and have this service explained.

The Texaco agents in McKinney, Mr. W. J. Rhea and Mr. C. N. Waters, who are always in the mood to talk their wares, invite you to try their Texaco Crack-Proof Motor Oil and Greater Fire Chief Gasoline just once, and then you will never be satisfied with anything else.

BANK HAS LONG RECORD OF SERVICE

Central National Has Been Factor In Building McKinney and Collin County Over Long Period of Years; Capital And Surplus Ample.

The leading banking institutions of any community is the barometer by which in a large measure the rest of the community is judged before the public. Prosperous communities do not just happen—they are built—and are the results of effort and thought on the part of public-spirited men and institutions and grow in the ratio to the effort and progressive-mindedness of these forces.

There is no middle ground in the growth of a community—they will either grow or lapse into decay.

The Central National Bank of McKinney is one institution that has enjoyed many years of service and has taken a large part in the development of Collin County. Its influence in the home life of the county is marked, indeed for without its able assistance, advice and counsel many who are now its most substantial citizens might not have enjoyed the satisfaction of owning their own farms, homes, and businesses.

The policy of the Central National Bank is one of accommodation to its customers and it has always extended every courtesy with utmost service consistent with good banking practices, both to the debtor and creditor alike.

Working under the theory that safety is of first importance, the management has since its establishment pursued a course of conservativeness that has gained the confidence and esteem of a large clientele, and won for it the respect of all who have availed themselves of its service.

Government statistics show that the average life of a business institution in this country is about three years when all lines are considered and the fact that the Central National bank of McKinney has served this community for over a quarter of a century long speaks volumes for the integrity of the institution and makes one of the brightest spots in the history of McKinney and Collin County.

The Central National Bank of McKinney with capital, surplus and undivided profits of $110,000 and with its deposits insured under the terms of the Banking Act of 1933, is inviting the people of this section to consult with them on their financial problems and to come in and visit with them at any time, they are always glad to have you.

How To Get Repair Loans

Here, in a nutshell, is the plan for borrowing modernization funds under the Federal Housing Program.

1. A modernization loan is solely for the purpose of repairing, altering or improving your home, shop, store or other building. Diversion of the money to any other purpose is strictly prohibited.

2. It can not be for less than $100 or for more than $2,000. The borrower must have a bona fide source of income equal to at least five times the annual payments.

3. It can be made for terms up to three years, but may be paid in full earlier than the maturity date if the borrower desires.

4. Maximum charges, including interest and fees, can not exceed an amount equivalent to $5 discount per year per $100 original face amount of the note.

5. To get a modernization loan, the property owner must present to the bank or other lending institution a precise estimate of the cost of the improvements and should be able to prove that they are necessary or advisable.

6. In addition, the property owner must file a Property Owner's Credit Statement, showing his financial condition, sources and amount of income and other information necessary to determine his ability to repay the loan.

If the bank considers the improvements advisable, and the property owner able to meet the payments when due, it can advance the money on the personal note of the property owner. The note must be signed by both husband and wife, if the property owner is married. No mortgage or collateral security is necessary unless State laws of the financial institution's officials demand it.

LOWER HOUSE LEGISLATURE INDORSES RAYBURN

Hon. Sam Rayburn of Bonham, Congressman from this, the Fourth District, in the Lower House of the National Congress, has been indorsed by the present House of Representatives of the Texas Legislature as a candidate for the Speaker of the National Congress. Congressman Rayburn was a member of the State Legislature from Fannin county for six years, being known as the "boy speaker" of the House of Representatives in 1911. He is an able man, yet in the prime of life and is regarded by many as having an excellent chance to be the next Speaker of the House. He is one of the leading candidates, being an outstanding member of the last National Congress which passed so much fine legislation for the aid of the nation. Congressman Rayburn has been a national figure and leader for several years and was recently elected by the voters of this district to his twelfth term in the National Lower House of Congress.

SIX BILLION ESTIMATED FARM INCOME 1934

A total cash income of about $6,000,000,000 in the year 1934 from sales of farm products and rental and benefit payments from the Agricultural Adjustment Administration is estimated by the Bureau of Agricultural Economics. This estimate compares with $5,051,000,000 in 1933, and represents an increase of nearly $1,000,000,000, or 19 per cent. It is a 39 per cent gain over 1932 when the total cash income from sales was estimated at $4,328,000,000, the low point of recent years.

These estimates of cash income should not be confused with the estimates on cash income from farm production. These estimates of cash income from farm marketings are the sum of the 12 monthly estimates of cash receipts from the sale of farm products during the calendar year while the estimates of cash income from farm production represent the income from products produced for sale during the calendar year but which may be marketed over a 2 or 3-year period.

Cash income from the sale of farm products during the first 7 months of 1934 is estimated at $2,894,000,000. In addition, farmers have received $170,000,000 in rental and benefit payments, and $13,000,000 from the sale of cattle to the Agricultural Adjustment Administration up to August 1. It seems likely that income from the sale of farm products during the remaining 5 months of the year will exceed from 3 to 6 per cent the $2,377,000,000 received during the last 5 months of 1933 as the advance in prices of farm products is expected to more than offset the decrease in the volume of marketings. In addition, it is estimated that rental and benefit payments from August 1 to December 31, 1934 on programs already in operation will approximate $350,000,000. If the Government's program to purchase 7,000,000 head of cattle and 3,000,000 head of sheep and goats is carried out during the rest of 1934, this will add an additional $90,000,000 to farmers' cash income during the last 5 months of the year.

Should the liquidation of livestock exceed expectation or prices advance more than is anticipated, farm income may exceed the estimate of $6,000,000,000. On the other hand, should fall rains result in favorable pastures and increase the amount of feedstuffs available for livestock during the coming winter, it may be possible that the liquidation of livestock will be less than is anticipated at this time and farm income for the remainder of the year fall below the estimate.

CONCRETE ROADS ARE BETTER AND CHEAPER

"Relax as you ride on concrete," says an attractive advertisement, the first of a series in the Daily Courier-Gazette and Weekly Democrat-Gazette by the Portland Cement association, 1301 Norwood building, Austin, Texas.

A majority of the people are making a fine and patriotic effort to have the highways of this county in the future paved with concrete.

We are heartily endorsing this policy for not only are concrete highways smoother, prettier, cleaner and easier to see on at night, but they last longer and cost less in the end.

We wish that the officials in charge could see their way to have the north half of Highway No. 6 and 75, north from McKinney to the Grayson county line, paved with concrete.

Work will begin later on this important project. Let's start it and finish it with real concrete. It is most enduring and economical.

Keep up with this fine string of advertisements in these papers. They are beautiful, easily understood and mean something.

The first one continues, "Every car is more fun, sober, more swift, on concrete—and also much more thrifty.

"You see better at night—stop quicker even in the rain—and save money on gas, oil, tires and repairs.

"To the dividends of joy and comfort and safety that concrete yields—add cash savings of as $20 per thousand miles in reduced driving costs.

"Pave Texas highways with concrete—attract more Texas Centennial visitors—advertise Texas to American motorists."

MAYOR LARGENT URGES CAUTION BY MOTORISTS

Mayor Joe E. Largent is very anxious that our municipal government and officials cooperate with other cities and counties of the state and with our citizens generally in trying to reduce serious and expensive automobile accidents. In a conversation with a representative of this paper he said:

* * *

Mayor Largent's Appeal.

Throughout the United States last year 30,500 persons were killed and more than 800,000 were injured in automobile accidents. According to present indications the records this year will be even worse.

Strenuous efforts must be made to convince the public that careful use of the streets and highways must at all times prevail.

Children will be returning to school next week and, therefore, extra precaution on the part of motorists is necessary. If motorists could be prevailed upon to drive a little more slowly, constantly keeping in mind that children are likely to run out into the streets—many of our accidents could be prevented.

Therefore, we apepal to the school, the churches, civic organizations, the press and the populace in general to cooperate in the country-wide program of street and highway safety.

The safety of our streets and highways depend upon each pedestrian, motorist and individual in this city and county.

FUNERAL HELD FOR NOLAND FREDERICK HALL

Nolan Frederick Hall, seven years old, son of Mr. and Mrs. Charles Pritchard Hall, was instantly killed about 4:30 o'clock Thursday afternoon at the family home, two and a half miles southeast of McKinney, by a shotgun discharge which pierced his right chest.

The accident occurred when the boy's older sister, Lela Charlene, nine, attempted to take the family shotgun away from her five-year-old brother.

The children were playing on the veranda of the Hall home and during the tussle over the gun, it fell, stinking the veranda, discharging and accidentally hitting Nolan Frederick.

Realizing that her brother was badly injured, Lela Charlene attempted to carry him to aid, but tired after a few steps and laid the child on the lawn. It was thought that he was killed instantly.

The younger brother had in his childish innocence obtained the gun from its regular place in the home and was dragging it behind him as a toy in childlike fashion when his sister attempted to take it away from him.

Mr. and Mrs. Hall, who are also the parents of another child, a baby son, were in McKinney at the time. They reside on one of the farms of John C. Enloe of this city.

Justice of the Peace Erwin C. Craus and Constable John A. Record made a hurried trip to the farm home to investigate the tragic accident.

Judge Craus rendered a coroner's verdict of accidental death due to gunshot wounds, accidentally inflicted.

Funeral services for Nolan Frederick Hall, seven-year-old son of Mr. and Mrs. Chas. Pritchard Hall, who was accidentally killed at the family home Thursday afternoon, were held at 4:00 o'clock Friday afternoon at the Wilson Chapel church conducted by Rev. G. H. H. D. Gilbert, prominent Weston farmer, while in town Monday, stated that farmers in his section of the county are much benefited by the good rain of Sunday night. However, he says he is about done picking cotton and doesn't know whether the rain came in time to make him any more cotton or not.

RAIN MONDAY BREAKS LONG DROUTH HERE

McKinney and Collin county citizens, who have longed for rain and cooler weather for the past several months had both wishes granted during the early morning hours of Monday when this city and vicinity was visited by a heavy 1.84-inch downpour of rain. The thermometer went as low as 61 degrees and was still going down early Monday under the impetus of a strong north breeze, the coolest since early spring.

Thus, ended the drouth and heat wave, one of the most severe in the history of Collin county wherein the thermometer ranged between 105 and 114 degrees for days and no rain of any consequence fell between May 24 and September 3. But, in the minds of all, the drouth has been definitely broken. Low-hanging gray clouds were still to be seen on every side Monday morning, the thermometer had descended three degrees—from 64 to 6—since from 7:00 to 9:30 o'clock. The skies cleared, however, about noon Monday.

The rain was fairly general over the county, according to reports reaching the city, and is greatly appreciated by farmers in all sections of the county.

According to E. Pearl Skelton, local volunteer government weather observer, this was the first real rain since May 24. However, a slight rain of .50 of an inch fell here during July, but even at that earlier stage in the drouth, the slight rainfall did no material good.

The rain was preceded by an electrical and thunderstorm. Prospects of even more rain were in the offing Monday morning and a strong breeze was blowing from the north.

According to County Farm Agent Jack P. McCullough, the rain came too late to do cotton any material good. It may cause a few smaller bolls to fill out. The biggest advantage is that the precipitation will help put tanks and watering places at normal. Late feed crops, gardens and fall-gardens and fall-sown turnips will be greatly benefited by the showers.

F. L. Turner, an experienced auto mechanic who has been living in McKinney for some twelve or fourteen months, has accepted a position as foreman of the repair shop at C. J. Smith's garage. Mr. Turner has had many years of experience in this line of work here and at Jacksonville, Texas, where he was reared. He will be glad to have his friends call to see him at his new business location.

Mrs. D. W. Nicholas of Plano who recently underwent an operation in a Dallas hospital, is recovering nicely.

Kirby, Mrs. J. H. Butler of Rowlett; G. E. Kirby of Beaumont and T. T Kirby of Denton.

A building belonging to L. A. Glass, of Farmersville, caught fire recently but was soon extinguished by the Farmersville fire department before it spread to other buildings. The building, which was on the north side of the square at Farmersville, was occupied by G. D. Hensley's feed store in one section and a domino hall operated by Pete Smith in the other section. Frank Tolbert of that city discovered the fire, giving the alarm, about 2:30 a. m.

The Farmersville Independent school board recently met and voted to refund the penalties on all school taxes now past due, if paid on or before October 1, 1934. This will assist many in paying their past due taxes during this period and thus benefit the schools.

THREE HURT WHEN CAR OVERTURNS

Mart Russell 20, who has been connected with the Leonard's Department store, Leonard Milstead, proprietor, in this city for some time, was badly inujured in an accident on Highway No. 6 and 75 two miles south of McKinney, Sunday afternoon. The accident, which happened about 4:00 o'clock occurred when the automobile in which Mr. Russell was riding, accompanied by Miss Aline Robinson and Jack Kerby, became uncontrollable, overturned five or six times and coming to rest right side up in a nearby pasture. It is believed that the steering gear broke on the automobile causing the serious accident.

Miss Robinson suffered minor cuts and severe bruises, but was much improved Monday morning at the City hospital where she was taken and young Mr. Kerby was treated for slight cuts and bruises late Sunday and then later released.

Mr. Russell is critically injured. It is feared that his skull is fractured. He sustained other bad head injuries, bruises and cuts.

Every ambulance in the city answered the emergency call immediately after the accident.

The party was going south on Highway No. 6 when the steering control of their auto broke and the machine became unmanagable.

Mr. Russell resides near Fitzhugh Mills.

He is the son of Mr. and Mrs. Silas Russell. Miss Robinson resides at Clearlake, while Mr. Kerby is the son of County Commissioner and Mrs. G. Frank Kerby of Forest Grove.

FIRST CATTLE CHECKS ARE RECEIVED

The first of the cattle checks—in payment to farmers of Collin county for cattle which they have turned over to the Federal Government's Agricultural Adjustment Administration as a part of the Drouth Relief program—have been received here by County Farm Agent Jack P. McCullough and are being distributed to the owners.

This first group of checks numbered 43 and totaled $5,096, ranging fror $12 to $570. Bert Hodges was the first one to receive one of these checks, which was for $ 72. Agent McCullough is expecting more cattle relief money to arrive every three days or so in the future. As soon as they arrive, the cattle owners will be notified to come in and get their money.

This government money comes to the aid of the farmers of Collin county at an opportune time. With the cotton crop moving at splendid prices and with the cattle money coming in steadily, business should be given an impetus over the city and county.

Collin county was first placed in the secondary drouth relief list for a few days and then later put on the primary drouth relief of the A. A. A.

The government is buying up all surplus cattle in the county under the direction of H. F. Ellis, who has this division of the agricultural relief program under his supervision. The government is offering liberal prices for surplus cattle in the county, paying the owner for same and canning the beef for consumption of those in need, while at the same time raising the price of cattle.

Mrs. R. K. Evans of Farmersville received painful burns while she was lighting a fire in a cook stove. She used gasoline, which she thought was kerosene, which exploded when ignited. She is not seriously burned.

Senator-Elect Wallace Hughston Is Honored

Grand Commander Will J. Rhea of the Knights Templar of Texas and Walter B. Wilson, both of this city, attended a 7 o'clock dinner at the Adolphus hotel in Dallas Wednesday evening, August 29, tendered to Judge Wallace Hughston, immediate past Grand Master of the Grand Lodge of Texas Masonry, recently nominated for the state senate from the tenth senatorial district of Texas, composed of the counties of Collin, Hunt, Rockwall and Rains.

The occasion was a compliment of prominent Dallas masons and intimate personal friends extended Judge Hughston under arrangements led in by W. Henry Watson, Deputy District Grand Master of the Dallas district under the administration of Grand Master Hughston.

John L. DeGrazier, a wholesale jeweler, prominent mason and civic leader, was toastmaster.

The group of friends that sat around the festal board were W. Henry Watson, John L. DeGrazier, Joseph F. Leopold, Gabe P. Allen, Dr. S. E. Milliken, W. R. Dudley, George W. Loudermilk, Tom A. Hughston, District Judge Towne Young, Former District Attorney Shelby Cox, Dan G. Fisher, W. M. Cramer, W. L. Provine, Rice Wood, Chester L. May, Editor Arthur A. Bagwill of Plano, Will J. Rhea, Walter B. Wilson and the honor guest, Senator-elect Wallace Hughston. Also present were members of the Bel-Canto quartet, popular radio singers composed of D. Martin Thomas, basso; Marcel Jones, baritone; T. K. Johnston, tenor, and Fred M. Shelton, tenor. All of the quartet members are initmate, personal friends of the honor guest. They interspersed the speaking with their singing that has made the Bel-Canto the most famous quartet in the South.

Mr. DeGrazier is one of the cleverest toastmasters we have ever seen preside. His resourceful genius in introduction and comment can not be matched. His knowledge of men and friends and their characteristics, together with his optimistic and jovial outlook on life, all make him a prime favorite as a toastmaster.

Most of those present responded with talks. The principal speakers however, were Joseph F. Leopold, Hon. Gabe P. Allen, Judge Towne Young, Shelby Cox, Dr. Milliken, Dan Fisher, Will J. Rhea and Chester L. May.

All commented on the ability and equipment of Judge Hughston for patriotic, high public service and each speaker dwelt upon the wide influence and personal acquaintance of the honor guest in every nook and corner of this great empire state. It bodes well for Texas so it was declared when such capable men are put forward to represent the state in its legislative halls.

Judge Hughston was thrice pleasantly surprised by presentation of gifts ranging from prized jewelry for men, presented in a brief speech by Henry Watson to some burlesque but significant mementoes calculated to evoke merriment and laughter of Judge Hughston's friends at the honor guest's expense.

The last speaker introduced by the toastmaster, was the honor guest himself, who, like he does on all occasions, admirably acquitted himself in the way of a heart-to-heart talk to his friends that further endeared him to them in ties of the most sacred friendship and admiration.

The Bel-Canto quartet is composed of practical business men who greatly surprised and pleased Judge Hughston at their voluntary presence and rendition of a half dozen of their choicest selections that fitted so appropriately into the sentiment of the occasion and added much to the pleasures of the well appointed event.

Those young people's services at the First Methodist church each night this week are being greatly enjoyed by the large congregations attending. There was a good-sized crowd present Monday night to hear a well-known and well-liked native young man, Rev. Fitzhugh Talbot, now pastor at the Vickery Methodist church, who brought an interesting and stirring message to the congregation. Services will be held the first four nights of this week and will be concluded on Friday night with a get-together and social gathering. Everyone, both old and young, has an invitation to attend.

We notice a few scattering loads of onions on our streets. They are high as a cat's back and strong as Mary's breath. Onions at the present price will sure put money in the pockets of the farmers. You can buy good land at $50 to $60 per acre and get from $100 to $200 per acre in onions off of it. Make us show you. We can.

Many tenant farmers are hunting land for rent. Very few farms in the county for rent, either large or small. This shows the trend back to the farm. Very little work in the towns, so the back-to-the-farm movement is stronger than it has been for years. Fifteen cent cotton, dollar wheat, sixty to seventy-cent corn, naturally puts the town man back on the farm. Buy you a farm either small or large.

A. L. Carpenter of Farmersville received painful injuries to his face and nose when he was kicked in the face by a bull at his place recently. Mr. Carpenter noticed the bull was in a bad humor and was carrying a club with which to protect himself. When the bull made a run for Mr. Carpenter he struck the animal across the nose with the club—then the bull wheeled round and kicked him in the face with both heels, knocking him to the ground. However, the animal did not continue his attack and Mr. Carpenter escaped without further injuries.

Prof. F. G. Jones returned to Fort Worth this afternoon after a two or three days' visit with his wife in McKinney at the home of the latter's mother, Mrs. Leslie Bush. Prof. Jones is one of the leading instructors of Texas Christian university, at Fort Worth. He was for fourteen years connected with the schools in McKinney and prior to that taught at Nevada in Southeast Collin. Prof. Jones made McKinney one of the most useful citizens it ever had—not only as a teacher of unusual success and popularity but also as a civic leader and a leader in church affairs as well.

THE ORIGINAL JOHN L. LOVEJOY IN LAMAR COUNTY

In a recent issue of the Paris News, A. G. (Pat) Mayse, editor, the following interesting article was contributed by A. W. Neville under the heading of "Backward Glances." The subject of Mr. Neville's article, John L. Lovejoy I, was the first merchant of McKinney when the town was started in 1846 by Act of the Second Legislature. John L. Lovejoy I was the father of several children—one of them, John L. Lovejoy II—served as County Clerk of Collin county before the Civil War. John L. Lovejoy III, grandson of John L. Lovejoy I, died in McKinney a few years ago, being at the time the President of the First National bank of this city. Mr. Neville says:

* * *

John L. Lovejoy I.

One of the many Lamar county boys who went or were taken elsewhere and "made good" as the biographers and success story writers love to relate, was John L. Lovejoy who became a banker at McKinney after following another line of endeavor, and was for years a prominent citizen of the Collin county metropolis.

Rev. John L. Lovejoy came to Texas from Georgia in 1836 and settled in what is now Lamar county, then a part of Red River county, before the Republic had come into being. With him came a son, George W. Lovejoy, who when grown to manhood married Miss Polly C. Highfield, October 29, 1846, the ceremony being solemnized by Rev. James Graham, better known hereabouts as Uncle Jimmy, early day preacher and schoolmaster.

John Lovejoy the elder had the contract for building the first Lamar county courthouse, which was at Lafayette, a few miles northwest of the present site of Paris. It was a box house, the specifications giving the size as 24 feet square and to be built similar to the storehouse of George W. Wright, that then stood where is now the west side of the Paris Plaza. Whether George assisted his father in the building—it was in 1841—I do not know, but the elder Lovejoy got the job done and was paid $250 in "obligations of the Republic of Texas," the record states.

George Lovejoy in 1849 moved to Collin county, taking with him his son, John L., born in 1848, named for the grandfather. There he bought a large tract of land a couple of miles west of McKinney. He was one of many who went from Lamar to Collin and Hunt counties about that time and helped build up that comparatively new country. He farmed and raised stock and young John, so soon as he was old enough, began going to the log-school house during the brief winter months and presently, being about grown, was given a situation in a McKinney drug store. Some years later he went on the road as a "drummer" for Meyer Brothers, a St. Louis wholesale drug house and traveled this section in that interest.

In 1882 when 34 years old, John married Miss Carrie Emerson, daughter of Francis Emerson, who had come from Ireland in 1855 as a youth and settled in Texas. In 1869 Emerson organized the First National bank at McKinney and was for years its president, dying in 1901. Deciding after his marriage that traveling was not the proper job, John Lovejoy organized a bank at Greenville and was its president. He was also a stockholder and director in the McKinney bank, and in 1907, some years after the death of his father-in-law, he was elected president of that bank. So the Lamar county boy, albeit only a year old when taken from here, had made good in the fullest sense. He was interested in Masonry, especially in his later years when he had leisure to attend the gatherings of the bodies composing that fraternity. In church affiliation he was a Presbyterian and his whole life was that of an excellent husband, father and citizen.

M. O. Bozeman, popular, enterprising young McKinney business man, is home from a week's rest and recreation at Mineral Wells, being a guest of the Crazy Wells hotel. His many friends are pleased to see him home.

Fred Barnes and wife, Mrs. Alice Warden and Miss Dorothy McElwain all spent Sunday at the beautiful Turner Falls, in Oklahoma. They also visited Sulphur before returning home. They report a nice crowd of health and pleasure seekers, at Sulphur, this season.

Fred Drake, who works for a newspaper near Clovis, New Mexico, is here on a few days visit to his father, A. D. Drake and other relatives in this city and county. Fred formerly held a position on these papers. He has been away from here about seven or eight years.

He is an excellent football player, being an all-city tackle at Woodrow Wilson last year and regarded as one of the mainstays of the team this year.

This county was recently favored with a visit from R. E. Knott of the Gainesville Register. Mr. Knott is the circulation manager of Joe Leonard's splendid paper, which reflects much credit on the publishers and on the city of Gainesville. Knott is a native of Blue Ridge and while in this section paid his brother a visit in that section. He is a capable, wideawake young fellow and while he was rather reticent as to his accomplishments, we are sure he is making good with the Gainesville daily.

County Commissioner-elect C. C. Whitt of Blue Ridge was in McKinney Thursday, favoring our office with a business call. He and his good wife live on their farm four and a half miles northeast of Blue Ridge. He is busy picking his thirty-one acre cotton crop, which will make in the neighborhood of a third of a bale per acre. Mr. Whitt's cotton is on second bottom land. His place was fortunate in getting a good local cotton rain on June 14 that enabled his cotton to turn out better than the average Collin yield will be this exceedingly dry year taking the county as a whole.

Rev. and Mrs. Woodruff and three children, Daniel, Betty and Jimmie, are now in McKinney, where they will make their home in the future.
